

TICA has a qualitatively good transport service to deliver your purchases, as well on a national as on an international level.

Before going to the cash register in order to pay for your purchases, you can already indicate your wishes for transport at the Customer Service-desk of TICA. Here you will also receive information about rates and delivery time.

Having agreed upon the conditions for transport, you will receive the transport documents. These documents are a proof of your transport order as well as an invoice that has to be paid at the cash register.

After having paid, TICA Customer Service will see to it that your purchases will be taken to the dispatch department where our staff will prepare your goods for transport. They will also contact the transport company. You will receive a confirmation of the delivery time agreed upon.

Rates for transport within the Netherlands are fixed. The costs for transport to all the postcodes in the Netherlands are € 56,50 per Euro Pallet* (Palletising and storage for 1 week maximum included)

TICA Customer Service can inform you about the rates for delivery addresses abroad.

In case you organize your own transport, but you want to store your purchases temporarily at TICA, the rates as mentioned below apply:

Palletising: € 11,50 per Euro Pallet*

Storage: € 1,- per Euro Pallet* per day

Please, do not neglect to give your transport company the address of our dispatch department: Poelweg 56, 1424 PB de Kwakel

* Maximum height is 2.20 meter

TICA would like to point out that the costs for transport are at your own charge and risk. For loss of and damage to goods we refer to the conditions as used by the transport company. If desired, you can insure the transport of your goods. All prices are subject to change.
