## trendguide summer 2021 | **interior trend Lemon Yellow**

The yellow trend has certainly not gone unnoticed! The wonderfully bright colour will be taking centre stage this summer in the fashion and interior design collections of our exhibitors.

### **Happy home**

If you want to create a happy home, yellow is the colour for you! The colour evokes a sense of cosiness and warmth and helps to ward off gloomy moods. Yellow accents in your home make you smile, and the colour reflects light and therefore literally brightens up your house!

### **Lemon yellow it is!**

Lemon yellow is one of the most cheerful and fresh colours out there. It is anything but boring, and is associated with optimism, sunshine, happiness, and strength. The use of yellow in an interior invites positivity and gives you and your interior a boost of energy. We love yellow!

### **A warm interior**

Bring your interior to life by combining ochre and lemon yellow with deep earthy shades. Wood and steel are perfect for adding a touch of warmth and transforming your interior, company, or styling project into a stylish summer haven.

Suddenly longing for the summer? Then visit our cash & carries in Aalsmeer and Venlo and get into the summer spirit with our inspiring styling points and our exhibitors' latest summer collections.

**Decorative cushions** add instant cosy vibes to your garden. Simply place a few cushions on a lounge set, chair, or bench and watch your outdoor space come to life! Decorative cushions come in many colours and sizes, so find the ones that match the latest trends for guaranteed sales success!
